OGLETHORPE COUNTY NOTES

- This subdivision is accessed by an existing unpaved county road, and Oglethorpe County has not committed to or guaranteed that the road will be paved or otherwise improved in the future. Maintenance will be limited to the County's current practices for unpaved roads, which may include grading, drainage work, and other minimal improvements at its discretion, and property owners and purchasers should be aware that the road may experience dust, mud, rutting, washouts, and limited accessibility during inclement weather, that emergency response times could be affected by these conditions, and that the County assumes no obligation to upgrade the road to a paved standard, all of which are acknowledged and accepted upon transfer of property ownership within the subdivision.
- A 250-foot viewshed buffer from existing road rights-of-way shall apply to all minor subdivisions and large parcel splits. Buffers may consist of existing trees, natural vegetation, or open pasture (no structures) and are intended to preserve the rural visual character of the county.
- Tracts may not be further subdivided for 40 years from the date of recording
